Speaker / Mic
Connection

220 Comm System & Control Panel Operation

POWER

Press "POWER" to turn power ON.
PRESS & HOLD "POWER" for 2+ seconds
to turn power OFF. An alarm tone will
sound briefly when power is turned OFF.

TALK

Press to "TALK" to the Phone.

ALARM
ALERTS
PHONE
UNIT

Press to send an "ALARM" tone to the Phone.

MONITOR
KEEP
ON FOR
SAFETY

(MONITOR) On/Off Switch: Hands-Free Monitoring
is ON by default. While being directed by the signal
person Hands-Free Monitoring is highly
recommended for safety.

To turn OFF Hands-Free Monitoring PRESS & HOLD
"MONITOR" for 2+ seconds. The green LED will go
out.

HANDS-FREE
MONITORING

The Green light indicates Phone Unit is on Hands-
Free Monitoring.

VOLUME CONTROL: While the unit is in monitor
mode the speaker volume can be changed by
BRIEFLY pressing the "MONITOR" switch. There
are 4 volume levels. Each press on the switch will
increase volume to MAX. Then next press will go to
MIN. volume.

CABLE
RED FAIL

Green LED indicates the cable and connection are OK.
When the Phone Unit is disconnected or a cable is cut, the
red fail LED flashes and a beeping tone sounds.
